

Animal Dental Clinic Relocation: Everything You Need to Know

We're thrilled to share some exciting news! Animal Dental Clinic is moving to a new and improved facility just a short distance from our current location. This move allows us to offer even better dental care for your pets in a larger, upgraded space. Below are answers to some frequently asked questions to make this transition as smooth as possible.

Where is the new clinic located? 📍

15250 E Hampden Avenue, Aurora, CO 80014

The new facility is just 2 miles away from our current location — a quick and easy drive!

When will the move happen? 📅

Our first day at the new location will be November 10th. All appointments scheduled on or after that date will take place at the new facility.

Why is Animal Dental Clinic relocating?

We've outgrown our current space and want to provide your pets with the best possible dental care in a facility that offers:

- More room for patients and clients
- Upgraded equipment and technology
- Expanded treatment and care capabilities

Do I need to do anything as a client?

Nope. Nothing changes for you!

- Your appointments, patient records, and contact information will all transfer seamlessly.
- Our phone number and email will stay exactly the same.
- If you already have an appointment scheduled after November 10th, it will automatically be at the new location.

We can't wait to welcome you and your pets to our new home!

Thank you for being part of the Animal Dental Clinic family. Your trust and support mean the world to us, and we're excited to start this new chapter together. 💛
